Communication skills

Excellent communication skills gained through my experience as a trainer as a manager of training first in amateur and professional clubs and then within the projects of the Italian football federation.

My many experiences as a professional footballer and the constant changes of the city, led me to acquire a strong ability to adapt.

The two experiences as a footballer in Austria and Belgium were very formative.

The experience as technical manager of the Italian Federal Centers project gave me the opportunity to improve and be trained by Mister Maurizio Viscidi Coordinator of the national youth teams of Italy.

I have held more than one hundred training meetings as a speaker, training about three thousand Italian technicians.

I contributed to the development and dissemination of the football project of the Italian federation.

Organisational / managerial skills

I was the technical manager of the F.I.G.C. for a total of about 80 people under my responsibility.

For two consecutive years I achieved recognition as technical manager of the Italian federal centers, this allowed me to be promoted and to be part of the national staff as a collaborator of the methodology.

I have excellent leadership skills in guiding a working staff.

I love to enhance the human resources I have available and to create a working climate of strong synergy between all the members of the working group.

I have good programming skills that allow me to manage the time I have available well.

I have a good ability to use with personal computers.

In the AC Chievo Verona club I play the role of Technical Director of the youth teams and the manager of the training of the coaches of AC Chievo Verona and of all the Italian and European academies.
