I am graduated in Civil and Environmental Engineering at the “Università Politecnica delle Marche” (Polytechnic University of Marche or UNIVPM) in Ancona with stage and thesis completely in English as a conclusion of a strict collaboration with the University of Danzica (Poland) with the title “Indoor air quality control: testing of electrospun filters”. I am now following the Master in Environmental Engineering at the UNIVPM (in English and in a wide collaboration also with the Catholic University of Washington DC, USA) to reach a better working level for a future career.

I achieved also the FIRST Certificate (level B2) for the English language at the Cambridge University and I can easily speak, write and understand English thanks to some experience abroad during past years.

From 2014, I am a football trainer with the Uefa C Grassroots license in a society called “ASD VILLA MUSONE CALCIO” with assignments in the youth academy from the Under 17 to the Under 11 team. I also had the opportunity in 2017 to write an Ebook with the title “ A mesocycle for the defensive phase” available on the youcoach website.

Speaking about jobs, I worked for the “Si con te” Supermarket in Porto Recanati during the summer time in 2014 and 2015 as a sale assistant with a constant contact with people to give them advices and to organize spaces in the shop. I was enrolled as a lifeguard in the summer of 2016 in my place and I also worked for Decathlon SRL in Macerata as a Sport Advisor in 2019. Recently I worked as an Engineer in an office located in Porto Recanati in which I had projects about the Italian Earthquake of 2016 and about the famous “Ecobonus 110” speaking about environmental impact of new constructions.

Since 2011, I am a presenter and a speaker for regional events and I also worked in a Radio called “Radioerre Recanati” as a Football commentator in 2016/17 following live matches of regional competitions.

To end my curriculum, I had the opportunity to join the local oratory for some works with children as an animator and a trainer for new generations.

#### Hobbies:

- Fishing (I am enrolled with the Fishing Association (FIPSAS) with some competitions all over Marche region) and sports in general;
- Reading and writing (with some appearances on the local newspaper with sport articles);
- Music (I played saxophone since I was 12 years old);
- Traveling (I was lucky to visit during my life some of the most beautiful places all over the world such as Vietnam, Singapore, Thailand, Iceland and some others with the possibility to know better traditions and habits of people living in this fantastic countries).
